

Joining an Exercise as an Additional Instructor

You may have more than one instructor or facilitator, to help manage or observe an exercise. Here is how to join an exercise already in progress as an additional instructor.

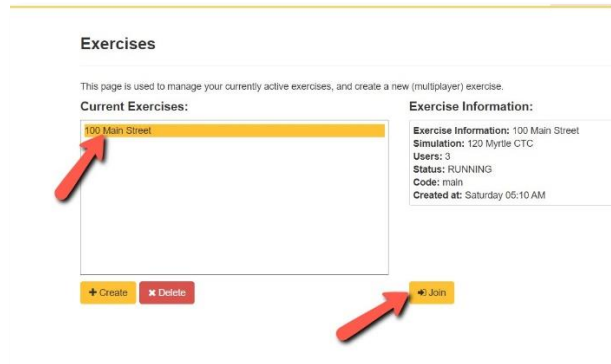

Log into the CTC under “Instructor Login” with your credentials.

Click on the “Exercises” tab.

Select the exercise you want to join, then press the “Join” button.

You now are in the exercise as an additional instructor/facilitator, with all the controls and options as the original instructor.
